Event Description:

In the expansive realm of technology, you've likely encountered the term 'Research Paper.' Naturally, you may have found yourself curious about it, haven't you?

MBIT IEEE WIE (Women In Engineering) AG recently hosted an illuminating 'Hands-On Workshop on Research Paper Writing' designed to broaden students' understanding and perspective of research papers.

This workshop aimed to provide participants with practical insights and guidance on the process of writing and publishing research papers. The workshop featured expert speakers, interactive sessions, and hands-on activities to enhance the participants' skills in research paper writing.

The Workshop received positive feedback from participants. Many attendees expressed their appreciation for the practical and interactive nature of the workshop. They felt more confident about their research paper writing skills and gained insights that they could immediately apply to their ongoing research projects.
